

Exhibit Call

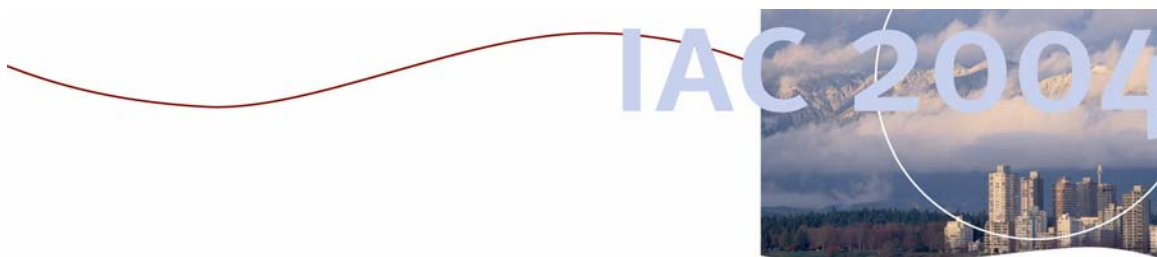

Make your organisation visible at the 2004 “Premier” Space Event

The International Astronautical Federation (IAF) will hold its annual Congress in beautiful Vancouver , Canada October 4 - 8, 2004 . This year is proving to be an exciting year for the space industry, with the successes on Mars and the Announcement of the new US Space Vision!

The 2004 International Astronautical Congress will be the most comprehensive space event of the year. Next year's 55th IAC will include over 900 technical papers presented in 26 symposia, 9 top-quality plenary sessions, an extensive trade show and over 1,500 attendees from all over the world. Business leaders, engineers and scientists will gather in Vancouver British Columbia October 4 - 8 for what is certain to be the “must attend” event of 2004.

Why should your organization exhibit at IAC 2004:

- ◆ IAC brings under one roof more than 2000 participants from 45 countries, the most attended international space-related event each year
- ◆ 2004 is the shaping up to be an excellent year for the space industry, momentum is on, your organisation would want to be part of the largest international gathering of the space community following successes on Mars and the announcement of the New US Space Vision.
- ◆ Large space organisations from North America, Europe and Asia already committed to exhibit
- ◆ Take advantage of this opportunity to network, make new contacts and generate new leads in a totally global environment
- ◆ A record-breaking 2000 Abstracts were submitted for Technical Sessions this year, which will lead to a record setting attendance!
